CALL FOR PAPERS

18. Altbergbau- Kolloquium

8–10 November 2018
IMG PAN & "Wieliczka" Salt Mine

An invitation to deliver a paper
and participate in the Conference

Patronage: **Dr.-Eng. Adam Mirek**
President of WUG

Altbergbau-Kolloquium

As a part of the colloquium series „Altbergbau“, the Strata Mechanics Research Institute of the Polish Academy of Sciences (IMG PAN) and the salt mine „Wieliczka“ host the 18th Altbergbau-Kolloquium. The series of events is supported by the Institute of Geotechnics, Surveying Geodesy and Geodesy TU Bergakademie Freiberg, Institute of Geotechnics and Mining Surveying in TU Clausthal and Working Group 4.6 „old mining“ with DGGT (Deutsche Gesellschaft für Geotechnik) in cooperation with DMV (Deutscher Markscheider-Verein).

This conference is held regularly every year and in the years from 2001 to 2017 it was held in Freiberg, Clausthal, Leoben, Aachen, Wrocław and Gelsenkirchen.

Target group for the conference are employees from the fields of geotechnical engineering, mine surveying, mining, geology and civil engineering of public authorities, engineering offices as well as teaching and research facilities. You will be given the opportunity to present new discoveries, insights, working methods and technical solutions in the field of exploration, evaluation, protection and maintenance of old mining and other formerly mined cavities, exchange of experiences and maintain contacts.

We are waiting for you in the Wieliczka town and hope for a lively participation.

- altbergbau2018@img-pan.krakow.pl

The main topics discussed at the conference

- exploration, evaluation and documentation,
- security and safekeeping, - monitoring,
- mine water increase,
- Altbergbau international,
- reuse of over and underground mining,
- legal and economic aspects,
- industrial archeology.

Contact the organizers if you would like to raise a different topic related to “old mining”.
